

Alright guys...Here is the deal.

I have personally talked with seven men that have never been involved in ABMen or have ever been to the retreat for that matter. I believe some will come. I'm still asking.

Why I am telling you this is to ask each of you...have you sought out another man that needs this retreat? Every man in our lives needs a spiritual retreat because he is a part of this ABC family - more importantly a part of God's family and they are our brothers.

I encourage and challenge you each to bring one man with you as a minimum, begin to be-friend / mentor a young man and bring him to the retreat. This effort is not to increase numbers and be happy; it's so we can strengthen each other, encourage, and begin to reunify christian men. In so doing, we can make a difference in families, churches, and our communities. We will strengthen men's effective leadership in the church, encourage spiritual growth, deepen the faith of men so that all of our families can survive today's world. Let's do it men!

Challenge is on the table, (By the way Bob, order me two steaks I'm coming hungry!)

Jason Workman - ABMen Disaster Relief Coordinator
